ACCOUNTABILITY BEYOND BOTTOM-LINE PROFITS

Our Eco360™ holistic approach to sustainability guides every decision we make. It's led us to become the first (and only) carbon-negative manufacturer in the industry. Every Milliken carpet is PVC-free, carbon neutral and able to be reused, renewed or recycled. We've recorded zero waste to landfill since 1999, a still uncontested industry first. And we continue to pledge No Carpet to Landfill, helping our customers find better options for disposing of old carpet. Learn more at www.sustainablecarpet.com.
